

Since many years, SELCOM has been manufacturing a comprehensive range of high quality Engineered NON CRIMP FABRICS (NCFs or multi-axial reinforcements) using fibers of the best brands the Composites Market offers.

Beginning of 2011, SELCOM has also installed a new production line using a state-of-the-art technology, for the production of ULTRA-LIGHTWEIGHT CARBON MULTI-AXIAL FABRICS, suitable for PRE-PREGS, Wet-Preg, Infusion, RTM, hand-layup...

Achievable Fiber Orientations: 0°/±30°/±45°/±60°/90°
